college scholarship and an all-expense paid trip to Cairo, Egypt.

Student Selected As Semi-Finalist

Livingston High School student Shiva Ayyadurai of 7 Baker Road was recently selected as one of 25 semi-finalists in the Edison/McGraw scholarship program sponsored by the National Science Supervisors Association. This scholarship program gives recognition to ten graduating seniors in the United States who demonstrate the same kind of creativity and ingenuity as Thomas Edison and Max McGraw.

Ayyadurai designed a full-scale electronic mail system now in use at the New Jersey College of Medicine and Dentistry. His system also has potential for commercial use.

Ten national finalists will be selected by the NSSA, and each winner will receive at least \$1,000. Two of the ten finalists will also be chosen for a \$5,000
