Shiva will take on the fake Indian.

Elizabeth Warren lied to jump over other candidates and land a position at Harvard.

Elizabeth Warren was **listed** as the Harvard Law's "**first woman of color**" in 1997 law review piece on diversity and affirmative action!

“ Elizabeth Warren pushed back hard on questions about a Harvard Crimson piece in 1996 that described her as Native American, saying she had no idea the school where she taught law was billing her that way and saying it never came up during her hiring a year earlier, which others have backed up.

But a 1997 Fordham Law Review piece described her as Harvard Law School's "first woman of color," based, according to the notes at the bottom of the story, on a "telephone interview with Michael Chmura, News Director, Harvard Law (Aug. 6, 1996)."

Warren was **listed as a "woman of color"** in the 1993 Harvard student journal.

And in 2012 Elizabeth Warren **admitted** she told Harvard Law she was Native American.

Warren **lied to get her job** at Harvard.
